FIBERKOTE PENETRATING SEALER FPS-820

Special solvent-based primer designed for fiber cement boards to provide excellent adhesion for topcoats.

Advantages:

- Help to evenly distribute paint absorption across the entire surface of the board.
- Prevent moisture from rising in the substrate.
- Able to be used indoors and outdoors.

Application:

Thinning	Without thinning (ready to use)
Application tools	Brush
Theoretical Coverage	5 m ² /litre (1x coat)

FIBERKOTE FBK-888 (Gloss) FBK-889 (Dof)

Transparent colored paint for fiber cement boards, formulated with a special water-based acrylic polymer and selected color pigments. Fiberkote is excellent for protecting and beautifying fiber cement boards, both indoors and outdoors. Available in two options: FBK-888 with a gloss finish and FBK-889 with a dof finish.

Advantages:

- Making fiber cement boards like wood.
- Weather resistance.
- Anti-mold and fungus.
- Alkali resistance.

Application:

Thining	Clean water
Application tools & thinning	Brush = 10%
Theoretical Coverage	5 - 6 m ² /litre (2x coats)
Appearance	Gloss 80% & Dof 20% (ready mix and tinting)

FIBERKOTE FLOOR

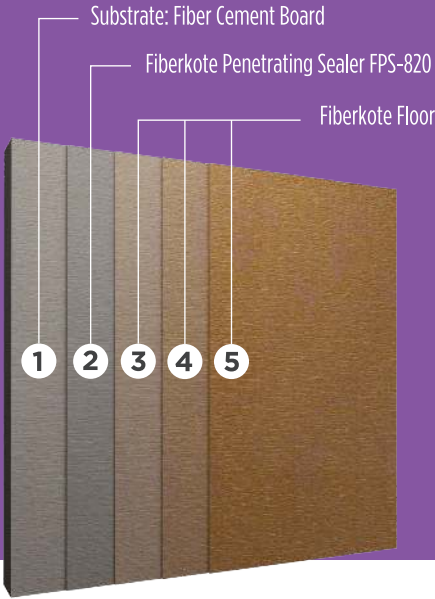

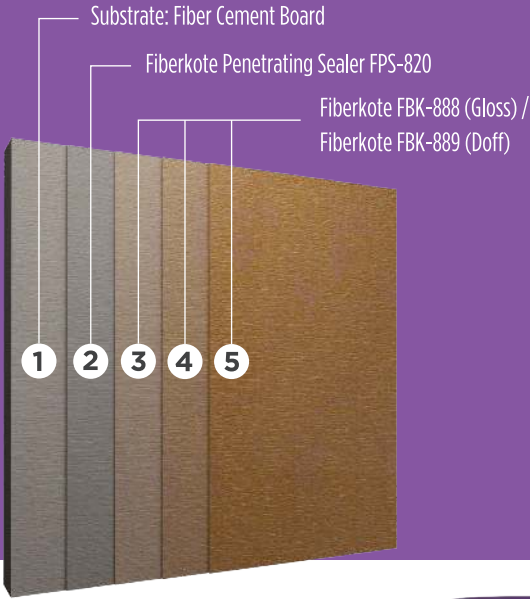

A single-component water-based transparent paint for fiber cement flooring/decking, made from a special water-based acrylic polymer with selected color pigments. This product is ideal for protecting and beautifying fiber cement flooring, both indoors and outdoors.

Advantages:

- Abrasion resistance.
- Weather resistance.
- Alkali resistance.
- Beautifies fiber cement boards.

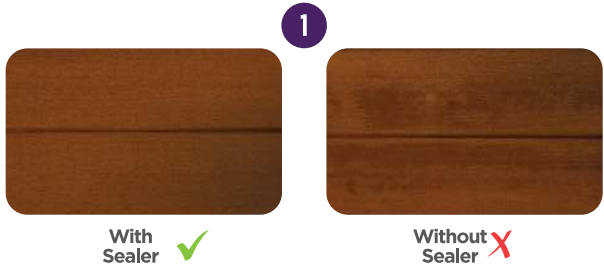

Application:

Thinning	Clean water
Application tools & thinning	Brush = 10%
Theoretical Coverage	4 - 5 m ² /litre (2x coats)
Appearance	Semi Gloss 55% (Tinting) Doff 20% (Ready mix and Tinting)

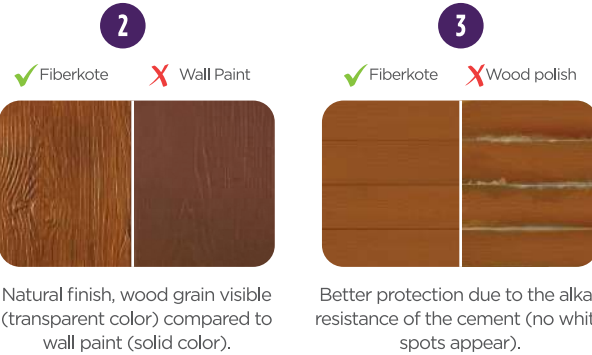

IMPORTANT

INFORMATION

Appear more even with sealer

Natural finish, wood grain visible (transparent color) compared to wall paint (solid color).

Better protection due to the alkali resistance of the cement (no white spots appear).

Fixing uneven paint color or changing colors

Covering screw marks

Quick method :

- (1) Previous top coat.
- (2) Fiberkote 888/889 in soft grey/castle grey.
- (3-5) Fiberkote desired color.

Quick method :

- (1) Fiber cement board that has been grouted.
- (2) Fiberkote FPS-820.
- (3) Fiberkote 888/889 in soft gray/castle gray.
- (4-6) Fiberkote desired color.
