

Propan Fungicidal Wash is a liquid moss and mold repellent.

To get rid of moss and mold:

- Clean the surface with high pressure water, if necessary assisted by a brush or kape.
- Apply Propan Fungicidal Wash with a brush or roll, leave for 24 hours.
- Wash and rinse with clean water. Wait to dry before painting.

To prevent the growth of moss and mold:

- Clean the surface.
- Apply Propan Fungicidal Wash at a 1:1 dilution using clean water. Let dry and no need to rinse.
- Apply primer / wall sealer / other paint.

Mossy and moldy walls, clean with Propan Fungicidal Wash
